

## Ecco cosa succede al Kerio Connect nel grace period e dopo la scadenza

### Kerio Connect 1

Software Maintenance scaduta.

Produce expiration ancora non raggiunta, siamo nel "Grace Period".

Posso accedere alla webadmin, creare utenti,... ATTENZIONE: sono disattivati gli addon come ActiveSync, Anti-spam e Anti-virus. Si comporta come un Kerio Connect con mantenimento scaduto.

The screenshot shows the Kerio Connect webadmin interface. The left sidebar contains navigation options: Dashboard, Message Queue, Traffic Charts, Statistics, Active Connections, Opened Folders, and System Health. The main content area is divided into several sections:

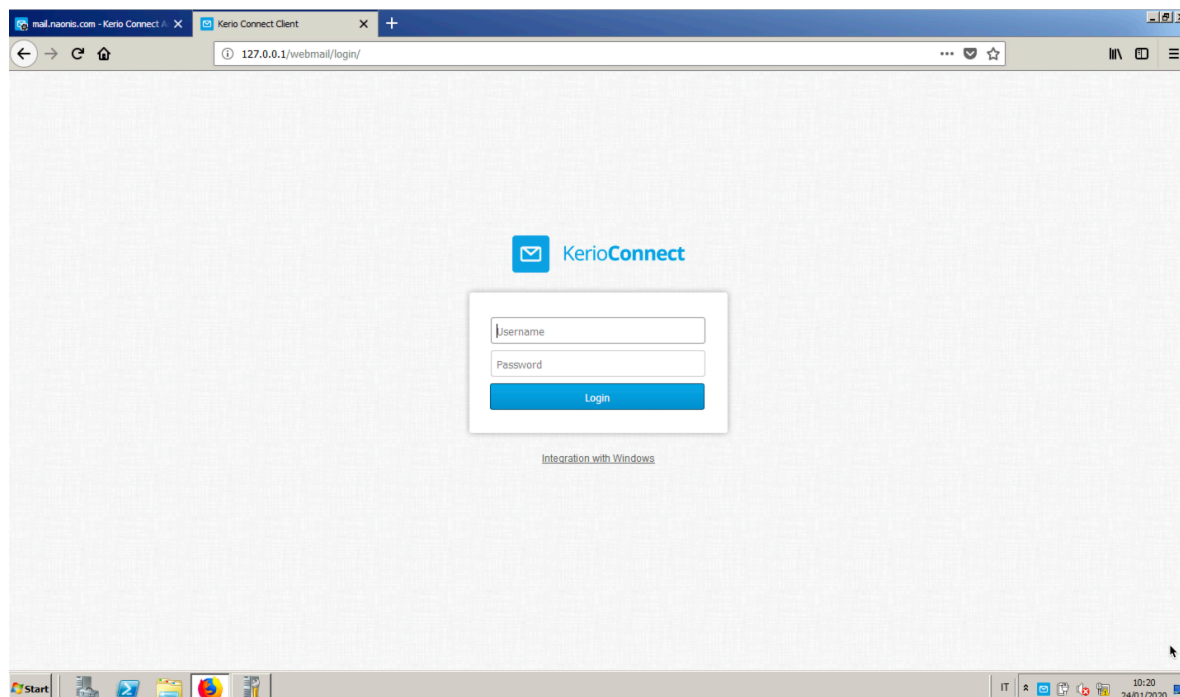

- Kerio News**: A section for news and updates.
- License Details**: A table showing license information:

License number:	10512-9BB6X-3ALLL
Software Maintenance expiration date:	2020-01-21 (expired)
Product expiration date:	2020-01-28
Number of users allowed by the license:	10
Number of active mailboxes:	0 (1 created)
Company:	NAONIS
Kerio Antivirus:	Expired
Exchange ActiveSync@ extensions:	Expired
Kerio Anti-spam:	Expired
- System**: A table showing system information:

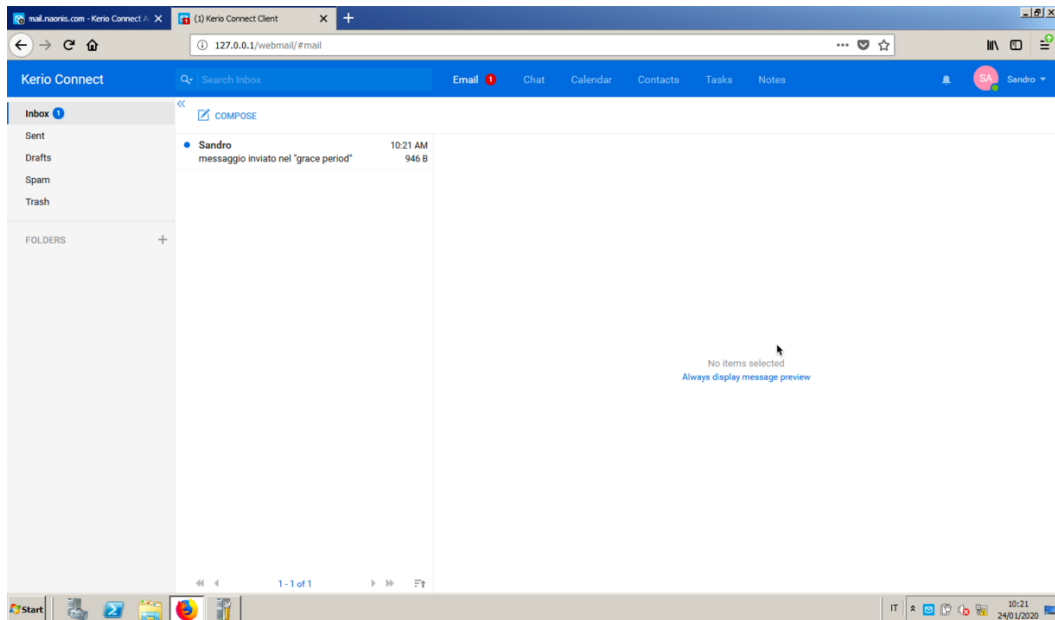

Version:	9.2.11 (4847)
Operating system:	Windows Server 2008 R2, x86_64
Hostname:	mail.naonis.com
- System Status**: Shows the system uptime as "less than 1 minute".
- Kerio Antivirus**: Shows the status as "Stopped".

A red arrow points to the "Software Maintenance expiration date" field in the License Details section. The bottom of the page shows the footer: "Kerio Technologies s.r.l. All rights reserved. Legal Notice".

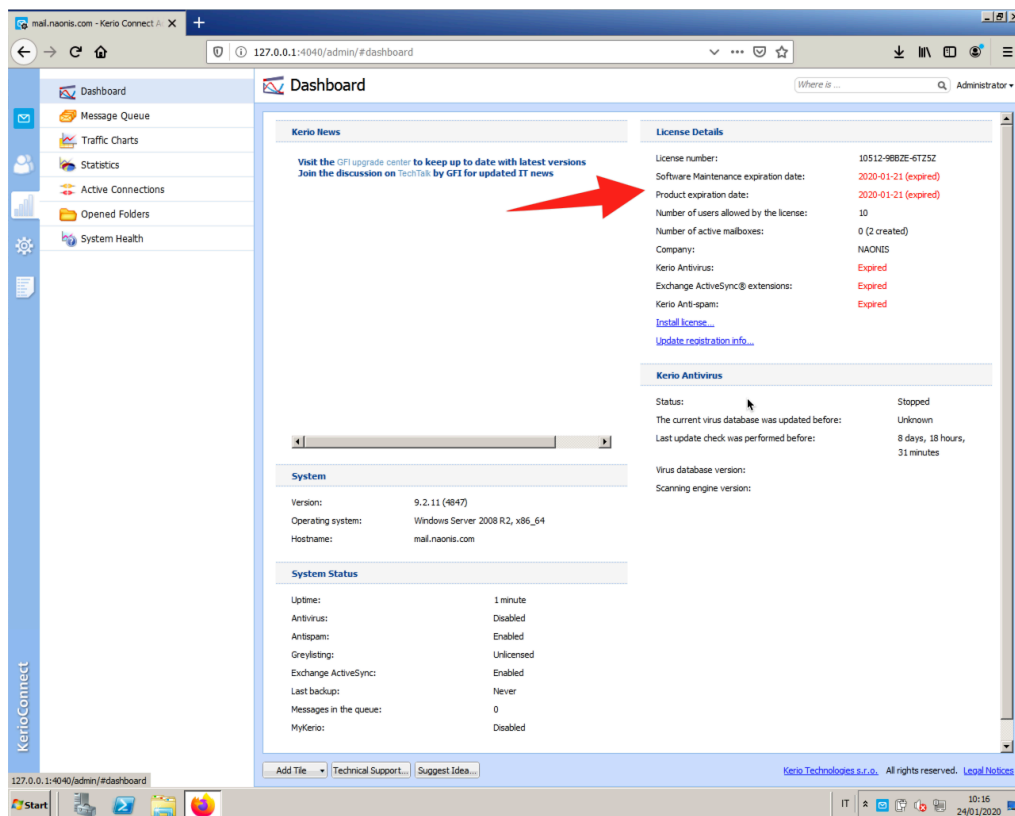

Gli utenti lavorano tranquillamente

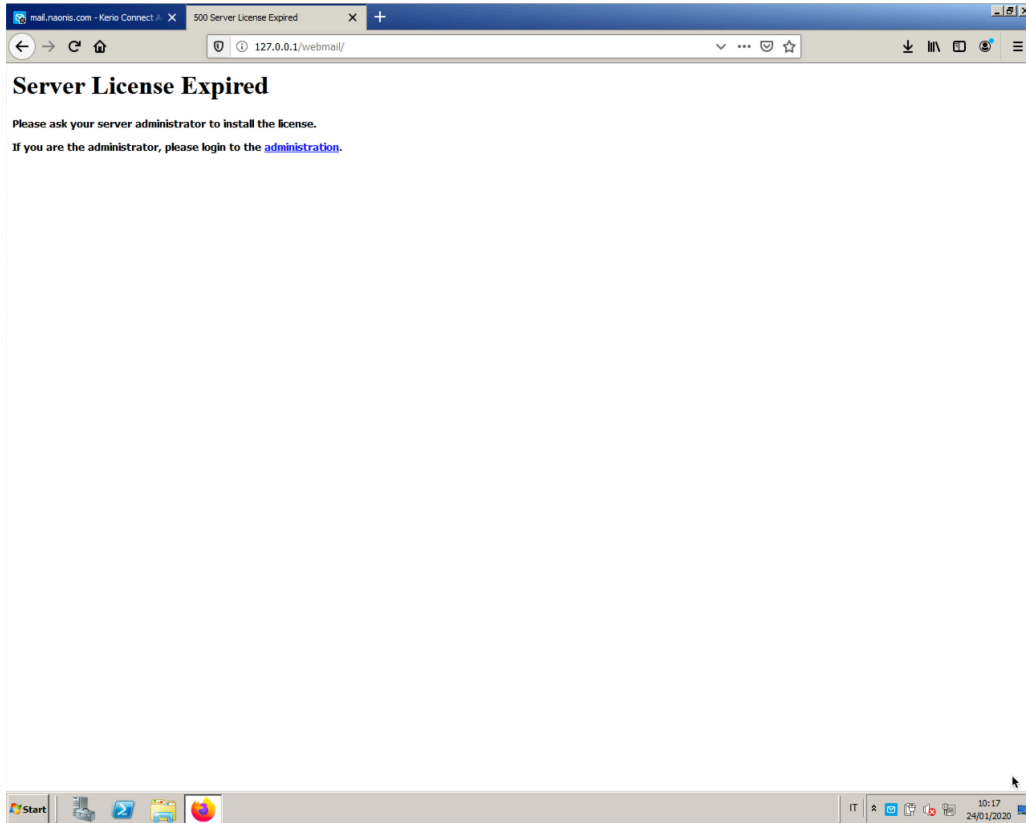

The screenshot shows the Kerio Connect Client login page. The page has a light blue background with a grid pattern. At the top center, there is the KerioConnect logo. Below the logo is a login form with two input fields: "Username" and "Password". A blue "Login" button is positioned below the password field. At the bottom of the page, there is a link for "Integration with Windows". The browser's address bar shows "127.0.0.1/webmail/login/". The Windows taskbar at the bottom shows the time as 10:20 on 24/01/2020.

**Kerio Connect 2**  
 Software Maintenance scaduta.  
 Produce expiration scaduta.

La webmail non è più accessibile, come tutti gli altri servizi (POP3, IMAP, SMTP, KOFF):

## NOTE

Schermate che precedono la scadenza

The screenshot shows the Kerio Connect Administration dashboard. A large warning dialog box is centered on the screen, titled "Warning" with a yellow triangle icon. The text inside the dialog reads: "The Software Maintenance will expire today. Even though the product continues to function properly after expiration, the Software Maintenance is required for continued access to important product enhancements and updates, such as antivirus database updates or the latest technologies to fight spam. To obtain a Software Maintenance renewal, please contact your authorized Kerio reseller or call your local Kerio office for additional purchasing options. To get more information about Software Maintenance, please visit the Kerio website. <http://www.kerio.com/support/software-maintenance>." Below the dialog, the dashboard content is partially visible. The "License Details" section shows: License number: 10512-96B6X-3ALLL, Software Maintenance expiration date: 2020-01-21, Product expiration date: 2020-01-28, Number of users allowed by the license: 10, Number of active mailboxes: 0 (1 created), Company: NAONIS, Kerio Antivirus: Yes, Exchange ActiveSync® extensions: Yes, Kerio Anti-spam: Yes. The "System" section shows: Version: 9.2.11 (4847), Operating system: Windows Server 2008 R2, x86\_64, Hostname: mail.naonis.com. The "System Status" section shows: Uptime: 41 minutes. The bottom right of the dashboard shows the time 12:23 and date 21/01/2020.
